

SALES REPORT FOR ELITE RETAILS

Data-Driven Insights and Analysis

16 Nov, 2024
MD TARIF

OBJECTIVE

- Build a system to analyze and visualize sales performance.
- Facilitate data-driven decision-making.
- Enhance business strategies.

KEY FEATURES

01 Total Sales Analysis

02 Sales by Product Category

03 Regional Sales Insights

04 Trends Over Time

AGENDA

01 Sales (Yearly Folder)

02 Categories (Excel)

03 Geography (Excel)

04 Subcategories (Excel)

05 Product Data (CSV/Database)

06 Sales Representatives (Excel)

DATA MODELLING

**Split city and country
from the location field.**

**Fix date formats for
consistency.**

**Cleaned and prepared
data for analysis.**

CALCULATED METRICS

- **Total Revenue = Retail Price × Units Sold.**
- **Total Cost = Standard Cost × Units Sold.**
- **Gross Profit = Total Revenue – Total Cost.**

TREND ANALYSIS

- Analyzed quarterly performance.
- Monitored month-over-month growth.
- Identified top-performing products.

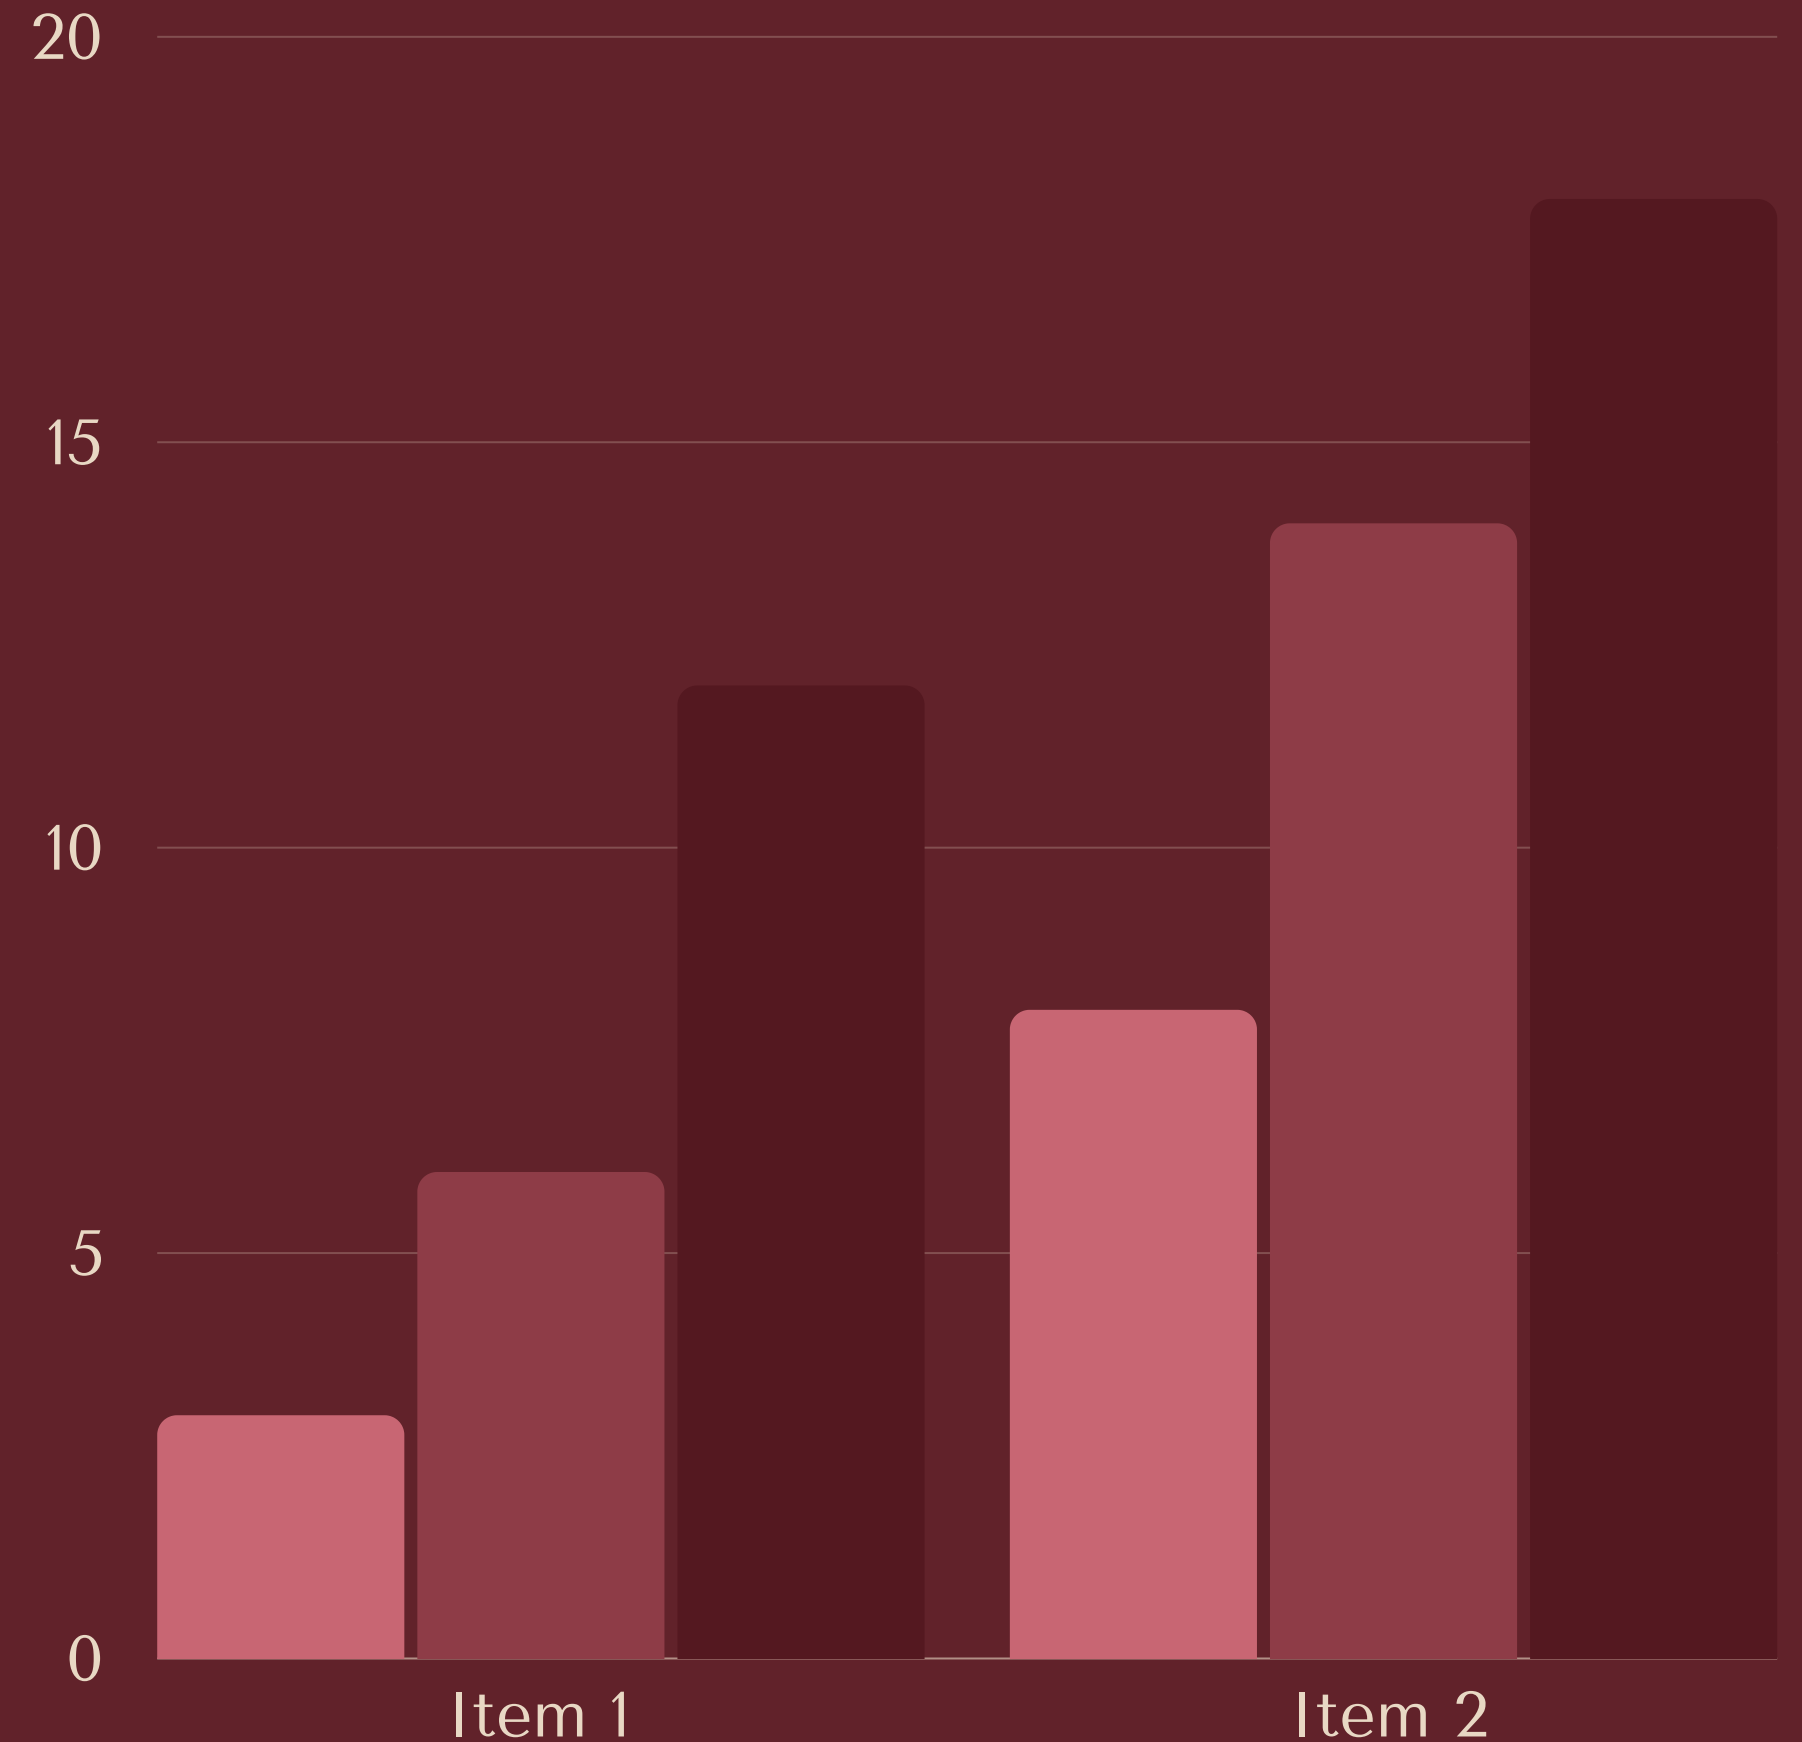

DASHBOARDS AND VISUALS

- **Interactive sales overview.**
- **Visual breakdown by category, region, and trends.**
- **Clear KPIs for decision-making.**

ITEM 1

ITEM 2

CHALLENGES I FACED

- 1 **Combining Data: Merging multiple sources.**
- 2 **Automation: Handling missing/new files.**
- 3 **Design: Ensuring intuitive visuals.**
- 4 **Date Sorting: Correctly ordering months.**

CONCLUSION

- The project successfully delivers actionable insights.
- Simplifies sales reporting for better strategies.
- Overcame challenges to enhance my technical skills.

THANK YOU
